

Welcome to
APS APPARELS

Message from Managing Director

APS Group has been in the textile industry for 26 years only and has earned its name, value and credibility through the hard-work, efforts, and strong commitment towards quality products for each and every one of our clients. The APS brand has now become a symbol of quality and trust for international market.

As we face the challenge of continuous changes and evolves within the industry as well we ourselves change to better serve all of our customers across the World, I would like to focus on what does not change: our commitment to service and quality, our leadership of the markets in which we participate, and the results: the satisfaction of our customers, our success and finally our rapid growth.

Ours are extremely open markets, we count our competitors all over the World, and we encounter new ones every day; from small companies or even entities making textile carriers for a neighboring spinning mill, through huge plants in the Far East that make these products by hand using vast quantities of labor, to large well capitalized multinational companies. We compete against all of them, in open market. Even the persons that takes order and produce the products from here and there compromising the quality are also our listed competitors.

We don't have one single strategy to compete against so many and so diverse rivals; but I would suggest that most of our strategies boil down to what can be best expressed with a single sentence: We always strive harder to satisfy our customers' requirements.

And I believe, this is our key to success & growth.

With my best wishes for everyone...!!

PRODUCTION CAPABILITIES

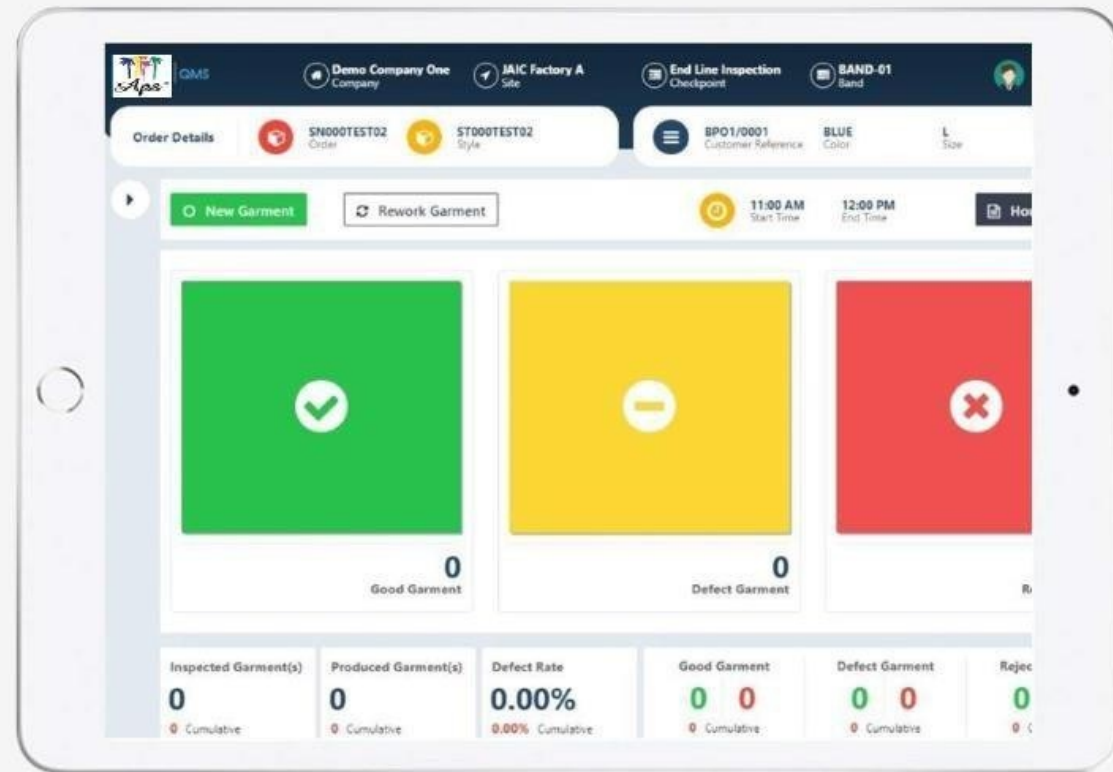

- Total Sewing Line 24 in 1 premises
- Monthly sewing capacity 15,00,000 pieces per month
- Monthly Turnover- \$3.5 Million
- Total Employee- 2000

ITEM	CAPACITY (PCS)
T-Shirt	350000
Polo	150000
Sweat Shirt	100000
Hoodie	100000
Trouser/ Leggings	200000
Lingerie / UW	330000
Others	70000
TOTAL	3500000

Quality Monitoring System (QMS)

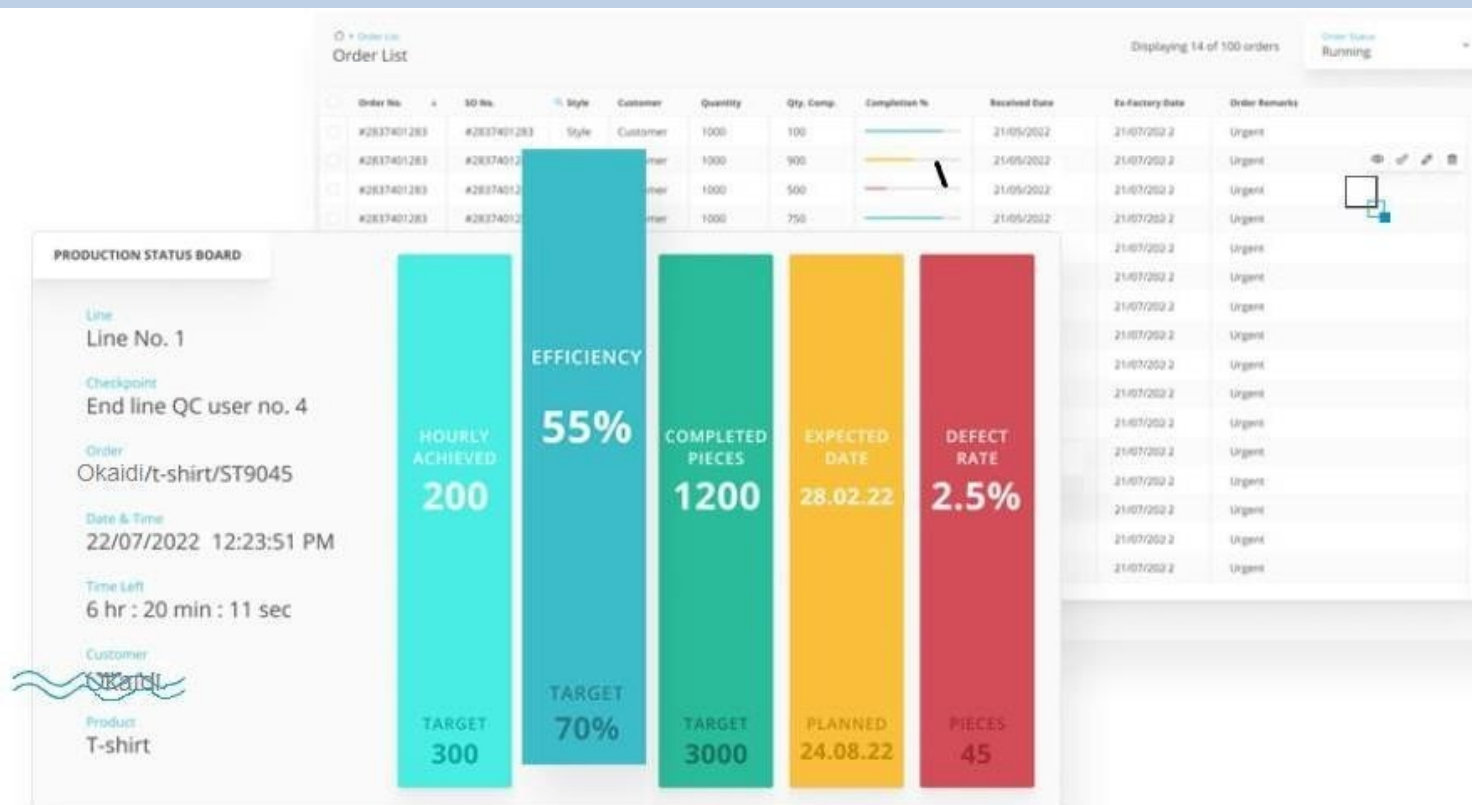

We believe – “Better Quality will give you better Productivity”

PAPER LESS QUALITY MANAGEMENT

Capture defects through a device agnostic web-based interface straight from any inspection point.

- Create custom defect templates
- Local language support
- Defect location marking
- Defect operation marking
- Multi-style simultaneous inspection
- Re-work tracking
- Access inspection report (real-time / cumulative)

Monitor Production And Improve Line Efficiency

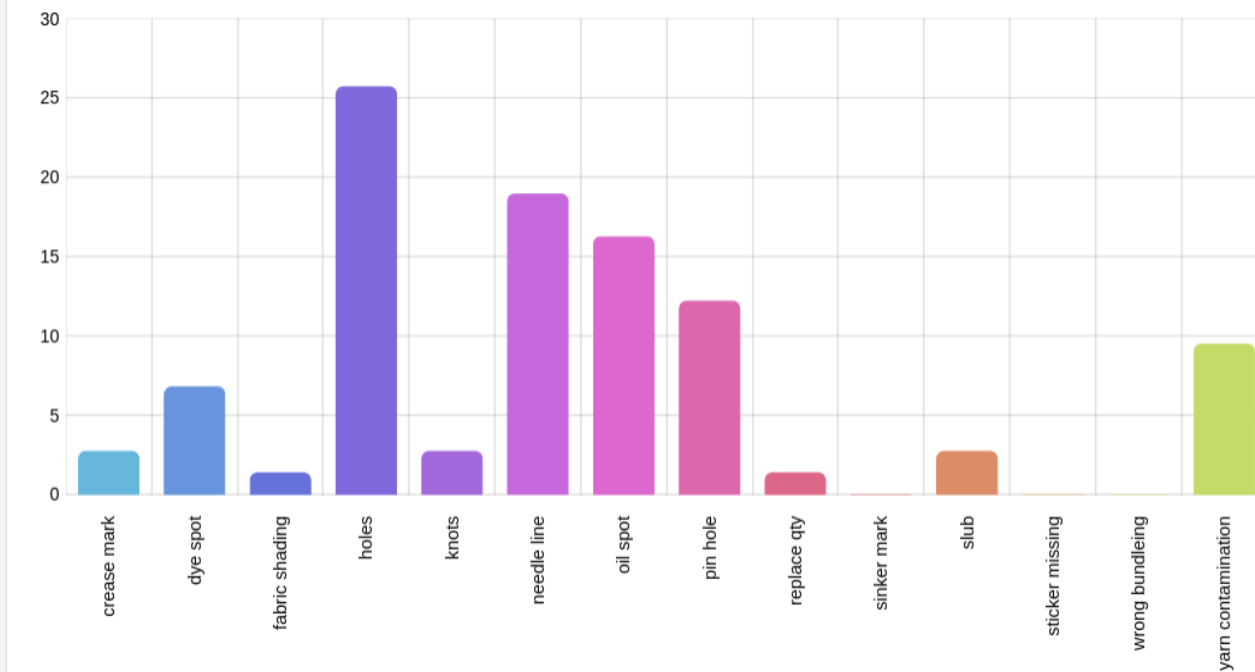

Track production output and KPI's effortlessly on real-time basis to ensure production targets are being met on time. Monitor production order status, factory & line performance through app and T.V. displays.

Significant Benefits of Introducing QMS

**Business Growth with
Visibility & Transparency**

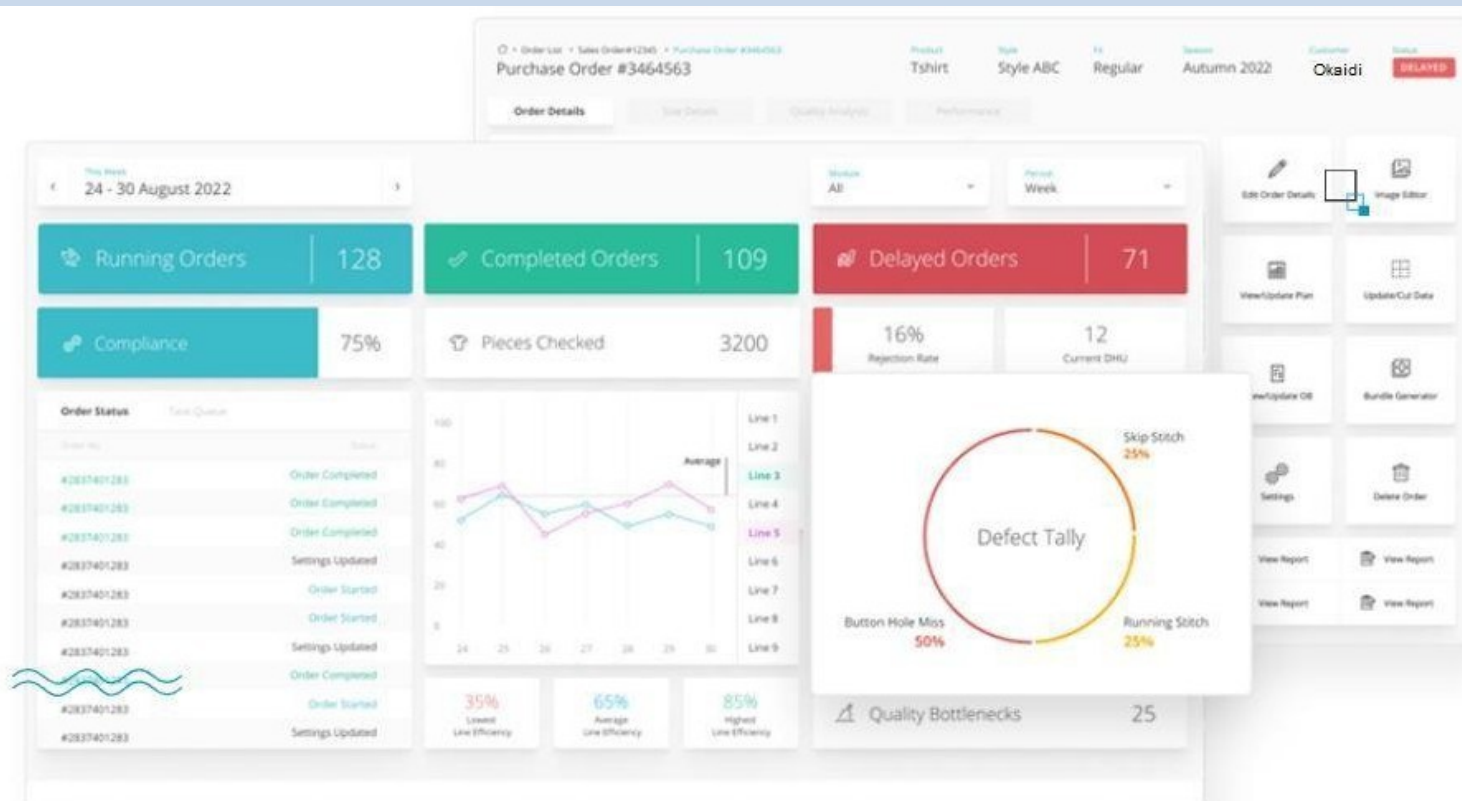

**Improve productivity &
Capacity by up to +50%**

**Achieve real-time Production floor
visibility using accurate data**

**Reduce Lead Time
up to 20 days**

Intelligent Insights To Optimize The Production

Analytics from Fashion Production Tracking Software provide line wise, PO wise, floorwise efficiency & performance. Compare planned vs actual performance & optimize your production floor.

► **Agile Decision Making**

PRODUCTION CAPACITY / KNITTING

- KNITTING Capacity – **15 TON / DAY**
- Machine Brand- FUKUHARA and PAI-LUNG

- Engineering Stripes

- All kinds of Ribs

PRODUCTION CAPACITY / DYEING

DYEING Capacity – 35 TON/DAY

- Dying Machine Brand: **SCLAVOS**, DILMENLER, J & X
- We have three Slitting Machine (**Bianco**, origin Italy)
- three Stenter Machine (**EHWHA**, from South Korea and **DILMENLER**, Turkey),
- Hydro-Extractor,
- DMS Equalizer Dryer (**DILMENLER**, Turkey)
- Three Fabric Compactor (**LAFER** and **FERRARO** from Italy)
- Brush Sueding Machine (**LAFER**),
- Raising Machine (**LAFER**),
- Tubular Sewing Machine (Comatex, Italy)
- Sample Tumble Dryer, Tumble Dryer (**TOLKAR**, Turkey) and so on.

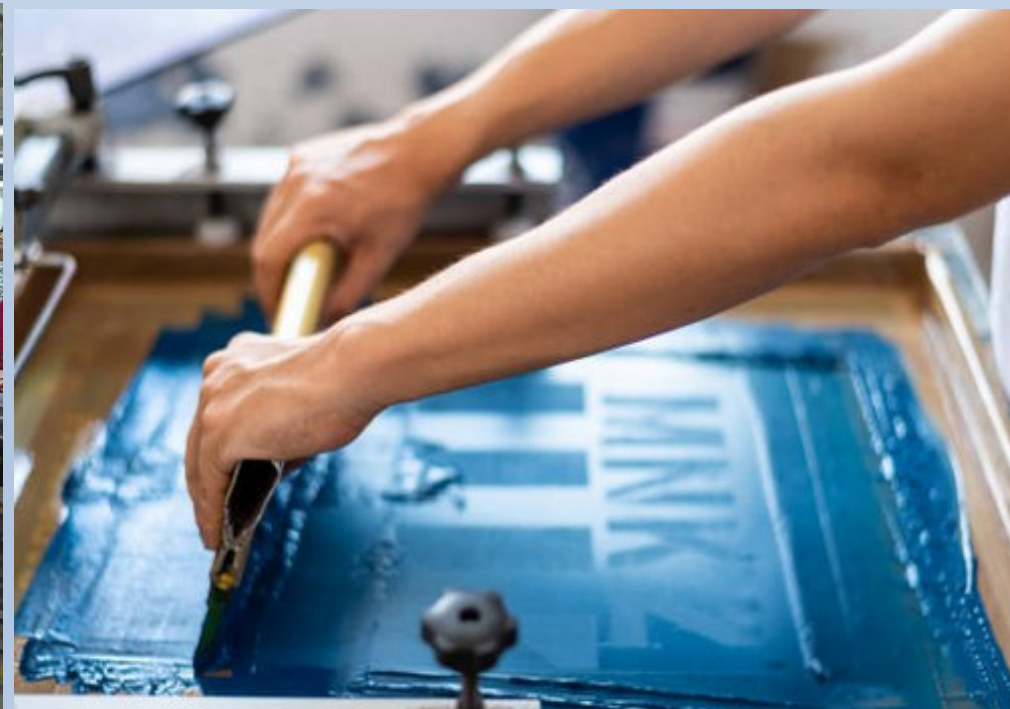

PLACEMENT PRINT:

17 Manual Printing Line with expert operator Capable of doing **ANY KIND** of Placement Print

CAPACITY = 60,000 PCS /DAY

WASHING CAPACITY

Garments Washing

- Capable to do all types of garments dyeing & washing
- Garment dyeing capacity 65,000/Month
- Washing capacity 260,000/Month

APS GROUP

LABORATORY

- Capable to do **all kind of PHYSICAL tests** in garments
- In Chemical test, capable to do Nickel test , PH value
- Accreditation is going on for all kinds of physical test (DIM & GROUPE BEAUMANOIR)

Few machine lists :

Full precision air conditioning system

- Auto dispensing machine – Lawer, Italy
- Colour Assessment Cabinets – VeriVide, UK
- Lab washing, Lab Dyer – LG, Whirlpool, Siemens
- Rotawash – color Fastness, SDL ATLAS, UK
- Sun test CPS+ , SDL ATLAS, GERMANY
- Rubbing tester – ATAC, Turkey
- Digital Bursting tester – SDL ATLAS, UK
- Pilling tester – SDL ATLAS, ATAC
- Dehumidifier – GE, USA
- Pull test – SafGuard – Japan and so on

SUSTAINABILITY

RAIN WATER HARVESTING

**Savings : 23,750
Cubic Meter
water/Year!**

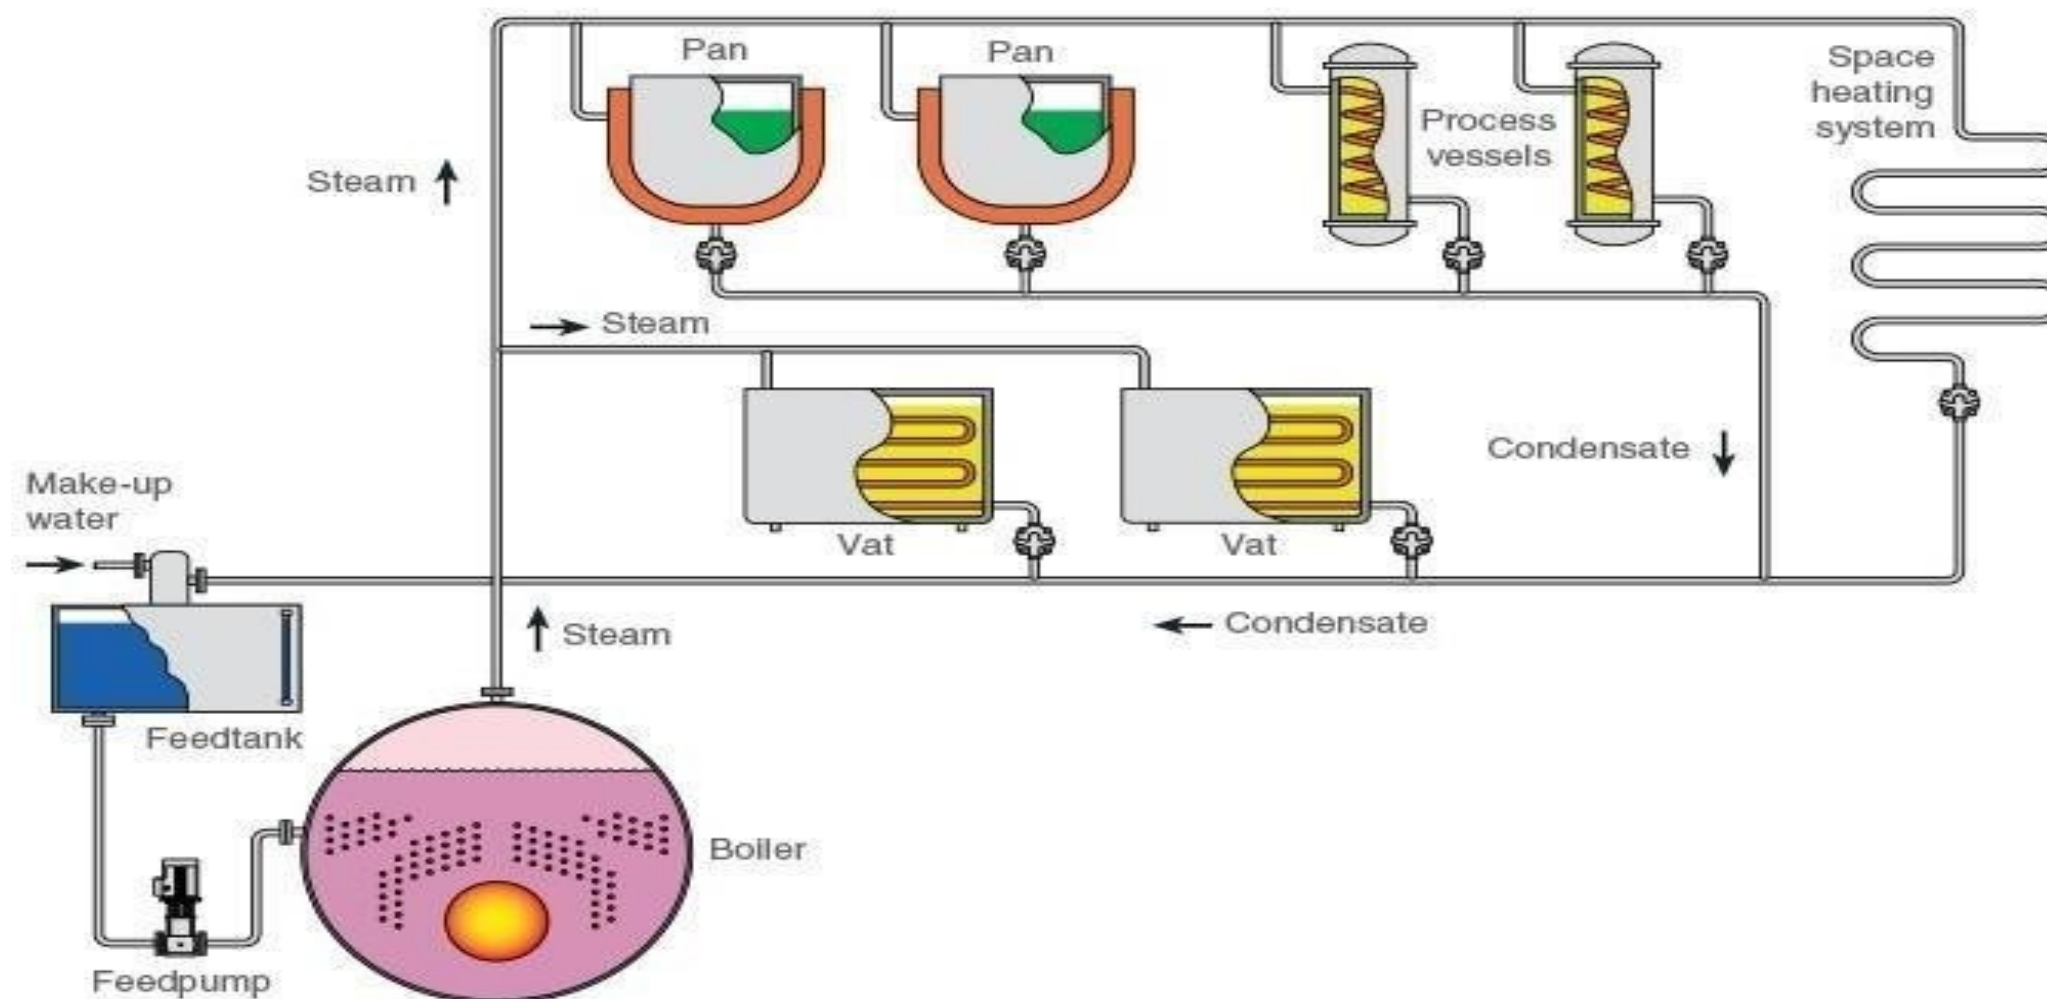

SUSTAINABILITY

CONDENSATE RECOVERY

We have almost 100% condensate recovery system: this system is for water recycled and energy saving.

Water Saving: 32000 m³/Year

Energy Saving: 210 KW

A typical steam and condensate circuit

EFFLUENT TREATMENT PLANT [ETP]

Waste water generated from the Dyeing and Finishing are treated and released causing no harm to the environment.

Water recycling through ETP and Rainwater Harvesting System results in savings of 420 million liters of ground water resources/year.

ETP CAPACITY 60 M3/Hour

The company

APS APPARELS LTD.

**106, Baitur Rahamat Jame Mosque Road
East Faidabad, Atipara, Dakshinkhan**

Dhaka - 1230, BANGLADESH

is granted authorisation according to Oeko-Tex® Standard 100 to use the Oeko-Tex® mark, based on our test report 14.0.44069

for the following articles:

Knitted ready made garments (T-shirts, polo shirts, tank tops, night shirts, sweatshirts, baby blanket and jacket, short pants and long pants) made of 100 % cotton (also yarn dyed), cotton/elastane, white and dyed and cotton/viscose in colour grey mélange, including accessories (sewing and embroidery thread, nonwoven interlining, elastic, pigment and rubber print on knitted fabrics made of 100 % cotton, PES-buttons, metal snap fastener, zipper, printed and woven labels); produced by using materials certified according to Oeko-Tex® Standard 100.

The results of the inspection made according to Oeko-Tex® Standard 100, product class I have shown that the above mentioned goods meet the human-ecological requirements of the standard presently established for baby articles.

The certified articles fulfil the requirements of Annex XVII of REACH (incl. the use of azo-dyes, nickel, etc.) as well as the American requirement regarding total content of lead in children's articles (CPSIA; with the exception of accessories made from glass).

The holder of the certificate, who has issued a conformity declaration according to ISO 17065-1, is under an obligation to use the Oeko-Tex® mark only in conjunction with products that conform with the sample initially tested. The conformity is verified by audits.

This authorisation is valid until 28.02.2015
